About SIGMA

SIGMA

SIGMA Pakistan is committed to delivering premium quality cameras and lenses with innovative technology and exceptional craftsmanship. Our products are designed for photographers who demand the highest standards in their equipment.

- ✓ Every lens, camera, and accessory is engineered and sourced in Japan
- ✓ "Made in Aizu" represents our promise of top-quality equipment
- ✓ Strict quality standards ensure exceptional performance
- ✓ Continuous innovation expands the possibilities of photography

Product Lines

SIGMA

LENSES

Organized into three distinct lines: Art, Sports, and Contemporary. Each category helps photographers select the right lenses according to their vision and needs.

CINE LENSES

Engineered for professional filmmaking, our high-end CINE Lenses answer the needs of today's advanced film projects, delivering detailed and professional results.

CAMERAS

Our unique cameras, when paired with lenses for Sony, are manufactured to inspire creativity in every moment, capturing sharp images filled with sparkling emotion.

Art Series Lenses

SIGMA

ART 17-40mm F1.8 DC

A new digital camera vision with a mini camera body perfect for content creators, portrait photography, street photography, travelers, and vlogging.

- Exceptional sharpness
- Compact design
- Wide aperture

ART 28-105mm F2.8 DG DN

A versatile zoom lens designed to capture spontaneous beauty and moments that are visually or emotionally striking, with consistent F2.8 aperture throughout the zoom range.

- Constant F2.8 aperture
- Versatile zoom range
- Premium build quality

Sports & Contemporary Series

SIGMA

SPORTS SERIES

300-600mm F4 DG OS

- ✓ Ultra-telephoto zoom with constant F4 aperture
- ✓ Optical Stabilizer for sharp images even at long focal lengths
- ✓ Ideal for wildlife, sports, and action photography
- ✓ Durable construction for challenging environments

CONTEMPORARY SERIES

16-300mm F3.5-6.7 DC OS

- ✓ Versatile all-in-one zoom range for everyday photography
- ✓ Compact and lightweight design for comfortable handling
- ✓ Optical Stabilizer compensates for camera shake
- ✓ Perfect for travel, family events, and everyday shooting

Sølve Sundsbø Project

Photographer: Sølve Sundsbø

Sølve Sundsbø felt otherworldly through the dreamlike creativity of life's beautiful forms. The result? Flowers of a sort appear timeless yet fleeting, paused in a delicate moment, showcasing the exceptional detail and color rendition of SIGMA Art lenses.

Julia Hetta Project

Photographer: Julia Hetta

Julia Hetta completed a stay in the Aizu region of Japan for creative work. She captured photos of a Japanese boy who traveled to Sweden and then returned to Japan, expressing his artistic journey through the exceptional image quality and artistic expression enabled by SIGMA equipment.

Why Choose SIGMA

SIGMA

Japanese Engineering and Quality

Every SIGMA product is meticulously crafted in Aizu, Japan, ensuring exceptional build quality and performance.

Innovative Technology

SIGMA continuously pushes the boundaries of optical design and camera technology to deliver cutting-edge products.

Diverse Product Range

From wide-angle to telephoto lenses, SIGMA offers specialized tools for every photography need and creative vision.

Professional Results

SIGMA equipment delivers exceptional image quality and performance that meets the demands of professional photographers.
